PRESS RELEASE

Virtus Resources Partners AG ("Virtus Resources") receives gas trading license for the Italian market

Virtus Resources is pleased to announce that it has been awarded a gas trading license and access to the Italian gas market regulated by Snam Rete Gas ("Snam"). Snam Rete Gas is the major natural gas transmission and delivery operator across Italy (<https://www.snam.it/en/home.htm>).

Italy is one of the largest European gas markets and a strategic route connecting Central Eastern Europe and Northern Europe with North Africa, the Middle East and the Caspian Sea. It is essential for the European Energy demand and has a broad natural gas infrastructure with multiple pipeline interconnection points, LNG regasification terminals and storage capacity.

The market access will be key for Virtus Resources to execute its already contracted natural gas volumes in 2023.
