PRESS RELEASE

Virtus Resources Partners AG ("Virtus Resources") signs commercial agreements with gas transmission system operator EUSTREAM in Slovakia.

Virtus Resources is pleased to announce the signing of commercial agreements with EUSTREAM, the natural gas transmission operator in Slovakia.

Slovakia is a key natural gas transit route and connects Central and Eastern Europe with Northern-Europe. It is an important gateway to the primary transmission routes in the Ukraine, Hungary, Austria, Czech Republic and Poland.

“We are pleased that we have been granted access to the gas network in Slovakia as we start to combine our footprint in Europe. This will connect our gas trading activities in the Austrian and Ukrainian market and indirectly connect also our activities in Italy. Virtus Resources is expanding into additional key European markets as it starts to connect its pan-European network” said Mario Busic, CEO at Virtus Resources.
